

SUNFLOWER SAFETY COUNCIL MEETING MINUTES

October 7, 2014

Annual fund raiser started at 10:15am at KSMS Yoder Kansas. A very relaxed atmosphere, members visited with each other and the mine rescue team members.

The picture below is of the Hutch Salt team readying their equipment.

The mine recovery simulation started at roughly 10:45am. Hutch Salt and Independent Salt mine rescue teams showcased their skills. Sunflower members were able to follow the teams through the simulation lab.

BBQ followed the mine recovery simulation and then donated prizes were raffled off. The fundraiser was one of our best to date for raising money. The general fund nearly doubled.

A recent non mining related safety issue was discussed as a reminder to take safety home with you to your family. Speak up if your neighbors or friends are placing themselves in harm's way.

A big thanks was given to the mine rescue teams and to all members for donations.

The meeting was adjourned at roughly 2:30pm.
